IN ASSOCIATION WITH  
**THE HINDU COLLEGE - MBA :: MACHILIPATNAM**

### ABOUT THE WEBINAR

Education is about imparting knowledge in a manner that would help an individual find means to make a living and survive in this world. As we stand now on the cusp of the fourth industrial revolution, a similar paradigm shift is taking place in the sphere of education is being called Education 4.0. It is a desired approach to learning that aligns itself with the emerging fourth industrial revolution. This industrial revolution focuses on smart technology, artificial intelligence, and robotics; all of which now impact our everyday lives. Advent of Industry 4.0 is not only affecting industries but also transforming the way jobs and education will be seen in the future. This will result in the evolution of education 4.0. The educational institutions have to produce a workforce for working in the technologically transformed era. Digital technologies, open-sourced content and global connectivity has already shown us the glimpses how the education sector is going to change during COVID19. The teaching community has to embrace change and harness the opportunities created by the advent of these technologies. The transformation will make the education more personalized, peer-to-peer, and a continuous process. The webinar will focus on future methods of learning and new technologies and tools used in this.
