No.KRU/AAC/Board of Studies/Economics /2023

Dated: 20-12-2023

Sub: KU – Academic Audit – The constitution of the UG Board of Studies (BoS) members in Economics for the approval of the Under Graduation (UG) CBCS syllabus w.e.f 2023-24 (APSCHE-AC-Revision of syllabus under CBCS with effect from 2023-24 syllabus) – Reg.

Read: Note order's of the Vice-Chancellor, dt: 20-12-2023

~oOo~

## ORDER:

In accordance with the provisions contained by the Krishna University act No:29 of 2008 of A.P. Govt., Hon'ble Vice-Chancellor is pleased to appoint the UG Board of Studies in Faculty of Economics with the following members.

UG BOARD OF STUDIES FOR ECONOMICS		
S.No.	Name of the Faculty	Designation
1	Dr. K Venu Madhava Rao Government Degree College, Tiruvuru Mobile: 9490877559, E-Mail: drkondaparla.economocs@gmail.com	Chairman
2	Dr. Sk Karimulla Dr.Lakireddy Hanimireddy Government Degree College, Mylavaram Mobile: 9182674292, E-Mail: karimpach@gmail.com	Member
3	N John Sukumar SRR & CVR Government Degree College (A), Vijayawada Mobile: 9440506282, E-Mail: sukumarnj@gmail.com	Member
4	Dr. Ch Surya Prakash Rao P. B. Siddhartha College of Arts & Science Mobile: 9346229847, E-Mail: suryaprakshrao1966@gmail.com	Member
5	B Ragavendra Rao Bondada Group of Industries Pvt. Ltd Mobile: 9966365050	Industrialist
6	S Vijaya Bhargavi Class: III BA Dr LHR Government Degree College, Mylavaram Mobile: 7816065636, E-Mail: vijayabhargavisadhula@gmail.com	Student Member-1
7	Sankar Nayak Class: I BA Dr. LHR Government Degree College, Mylavaram Mobile: 8186952063	Student Member-2

The term of office of all the members including the chairman of Board of studies until further orders with effect from the date of the order or till the new boards of studies constituted.

These orders shall come in to force with immediate effect.

(BY ORDER)

Copy to:  
The Chairperson & all members of UG Board of Studies of the above  
All Directors and Principals of the University and Constituent Colleges/Units  
PA's to Vice-Chancellor/Registrar KRU

Semester-wise Revised Syllabus under CBCS 2020-21  
Four Year – B.A.(Hons), Semester - VIII  
Higher Order Domain Course - 1

**10A: ADVANCED THEORIES IN DEVELOPMENT ECONOMICS**

**Learning Outcomes:**

After successful completion of the course, the student is expected to perform the following:

1. Explain the concepts and measurements of poverty, inequalities and unemployment as indicators of Development;
2. Discuss relative merits of various advanced growth models;
3. Distinguish between various theoretical models of underdevelopment and development.
4. Explain various investment criteria and choice of techniques and discuss their appropriateness for developing countries
5. Examine the role of international trade as engine of growth and explain different theoretical aspects of export-led growth.
6. Discuss the role of IMF and world bank in economic development with particular reference to India.

**Module 1: Development Indicators and Measurements (13 Hours)**

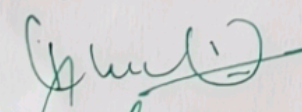

Human Development: Concept, Measurement of HDI - Poverty: Concepts, Poverty Traps – Poverty Measurements: Head-Count Ratio, HPI, MPI – Unemployment: Concepts, Measurements – Inequalities: Concept and Types – Measurements of Inequalities: Lorenz Curve & Gini Index, Atkinson Index & Palma Ratios, World Inequality Report Index – Kuznets Inverted U-Hypothesis - Sustainable Development and UN-SDGs

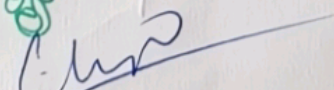

**Module 2: Technology and Endogenous Growth Models (12 Hours)**

Technical Progress: Concept and Types ( Embodied & Disembodied; Hicks, Horrod & Solow) - Total Factor Productivity - Growth and Distribution Models: Kalecki's Theory, Kaldor's Model, Pasinetti's Model – Kenneth Arrow's Learning by Doing - Endogenous Growth Model - Multi Sector Growth Models: Uzawa and Feldman models.

**Module 3: Theories of Underdevelopment and Development (15 Hours)**

Critical Minimum Theory – Low Level Equilibrium Trap Theory – Models of Dualism: Social and Technological - Unlimited Supply of Labour Model and Fei Rains' Dual Economy Model – Cumulative Causation Model - Neo-Marxist Development Theory – Indian Development Models: Gandhi, Nehru, Ambedkar, Rao-Manmohan, Amartya Sen

1)   
2) 

#### Module 4: Growth Strategies for Developing Countries

(10 Hours)

Investment Criteria in Developing Countries: Social Marginal Productivity Criterion, Capital-Output Ratio Criterion, Marginal Per-capita Reinvestment Quotient Criterion, Time Series Criterion, Leading Sectors Criterion - Choice of Techniques and Economic Growth - Approaches to Choice of Techniques: Traditional Approach, Maurice Dobb's Approach, A.K. Sen's Approach

#### Module 5: International Trade and Economic Development

(10 Hours)

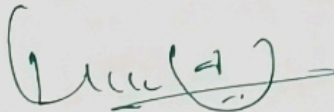

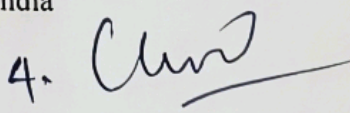

International Trade as Engine of Growth by James Riedel - Static and Dynamic Gains from Trade - Prebisch, Singer and Myrdal Thesis - Export-led Growth - Dual Gap Analysis - International Finance and Development - IMF and World Bank Development Policies in Developing Countries with special reference to India.

**Higher Order Domain Course - 2**

**10B: PUBLIC ECONOMICS**

**Learning Outcomes:**

On successful completion of this course, the students will be able to

1. Explain and illustrate the basic concepts and principle of public finance
2. Discuss different theories of taxation.
3. Distinguish between different tax systems and different types of taxes with reference to Indian tax system.
4. Make detailed analysis of the impact and incidence of taxation
5. Discuss theories of public expenditure with reference to public expenditure practices in India.
6. Explaining the concept of debt burden and its effect discuss different methods of redemption of public debt in the Indian economy.
7. Examine the objectives and various instruments of fiscal policy with reference to the budget of Indian government.
8. Discuss the role of finance commission in devolution of funds to states in conformity with the principles of federal finance.

**Module 1: Introduction to Public Finance and Market Failure (12 Hours)**

Meaning, Nature, Scope, Importance of Public Finance - Public vs Private Finance - Principal of Maximum Social Advantage - Types of Goods: Private, Public, Merit, Club - Problems of Market Failure, Externalities and Free Riding and Solutions.

**Module 2: Public Revenue (12 Hours)**

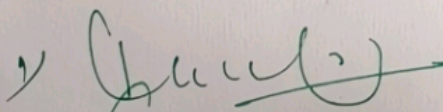

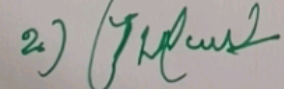

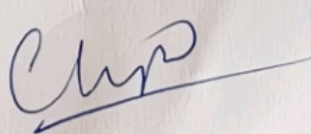

Sources of Revenue: Tax and Non-tax - Canons of Taxation - Theories of Taxation: Socio-Political Theory, Benefit Received Theory, Ability to Pay Theory - Tax Systems: Progressive, Proportional, Regressive - Types of Taxes: Direct and Indirect - Incidence and Effects of Taxation - Non-Tax Revenues - Shares of Tax and Non-Tax Revenues in India.

**Module 3: Public Expenditure (12 Hours)**

Principles of Public Expenditure (PE) - Classification and Effects of PE - Theories of PE: Wagner's Law, Peacock-Wiseman, Colin-Clarks Critical Limit Theory - Determinants of PE - Public Expenditure Practices in India - Criteria for Public Investment - Social Cost Benefit Analysis - Pricing Policies of Public Sector Enterprise

**Module 4: Public Debt and Budget (14 Hours)**

Public Debt (PD): Meaning, Types, Sources - Effects and Burden of PD - Theories of PD: Classical Theory, Barro-Ricardo Equivalence, Keynesian Approach - Shifting and Redemption of PD - Public Debt Management in India - Budget: Meaning, Importance,

1)   
2)   

Types - Basic Concepts and Deficits in Budget – Budget Multiplier - Fiscal Discipline and Consolidation, FRBM Act – Brief Analysis of a Recent Budget in India.

**Module 5: Fiscal Policy and Fiscal Federalism**

**(12 Hours)**

Fiscal Policy: Meaning, Objectives and Functions - Principles of Multi-Unit Finance - Fiscal Federalism in India and Constitutional Provisions - Vertical and Horizontal Fiscal Imbalances - Recent Finance Commission: Objectives and Recommendations – Issues and Challenges of Fiscal Federalism and State Governments Finances in India.

**10C: INTERNATIONAL ECONOMICS**

**Learning Outcomes:**

After completing the course, the student is expected to perform the following:

1. Explain the importance and concepts of international trade;
2. Make a critical analysis of the theories of international trade;
3. Explain changes in the methods of determining exchange rates.
4. Distinguish between current account and capital account and status of rupee convertibility policy in Indian economy.
5. Analyse the causes of unfavourable BoP and evaluate the corrective measures
6. Analyse the effects of Trade Barriers and protectionism in International trade.
7. Critically examine role of IMF and World Bank in International Trade and Finance
8. Explain multilateralism, regionalism and India's international trade

**Module - 1: Theory of International Trade**

(10 Hours)

International Trade (IT): Meaning and Importance – IT as Engine of Economic Growth – Free Trade vs Restricted Trade - Terms of Trade (ToT): Concept, Types, Equilibrium ToT and Use in IT - Offer Curves: Meaning, Properties, Elasticity and Use in IT - Opportunity Costs in IT – Trade Multiplier – Gains from Trade and Welfare.

**Module - 2: Theories of International Trade**

(14 Hours)

Classical Trade Theories: Absolute Advantage Theory, Comparative Advantage - Modern Trade Theories: Heckscher-Ohlin Factor Endowments Theory, Leontief Paradox, Stolper-Samuelson Theorem - Other Trade Theories: Prebisch-Singer's Secular Deterioration Thesis, Gunnar Myrdal Trade Theory, Paul Krugman New Trade Theory

**Module - 3: Exchange Rates and BoP Mechanism**

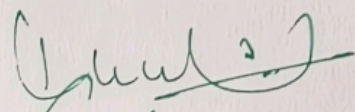

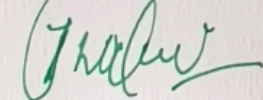

(12 Hours)

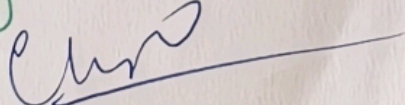

Exchange Rates: Meaning and Types – Changes in Exchange Rates: Devaluation & Revaluation, Depreciation & Appreciation - Factors and Determination of Exchange Rate – Purchasing Power Parity – Balance of Payment (BoP): Definition, Composition, Equilibrium and Disequilibrium - BoP Adjustment Mechanisms - BoP and Policy Assignment Problems and Mundel Model.

**Module 4: Trade Barriers and International Finance**

(12 Hours)

Trade Barriers: Tariffs, Quotas, Subsidies, Dumping & Anti-Dumping, Price Discrimination - Effects of Trade Barriers – Optimum Tariff Theory and Formula – Effective Rate of Protection - New Protectionism – Role of International Finance in Trade – Role of World Bank and IMF in International Trade and Finance

1)   
2) 

### Module 5: Multilateralism, Regionalism and India's International Trade (12 Hours)

Multilateralism, GATT & WTO - Forms of Economic Cooperation: Free Trade Area, Customs Union and Common Market – Brief Role of IMF and World Bank Policies in Promoting Trade - India's International Trade: Trade Composition, Direction, BoP, Forex Reserves, Important Trade Agreements and New Trade Policy

**10D: CONTEMPORARY DEVELOPMENTAL ISSUES IN INDIAN ECONOMY**

**Course Outcomes:**

After completing this course, the students are expected to perform the following:

1. Evaluate the debate on Growth vs distributive justice with reference to prevailing magnitude of poverty, inequalities and unemployment in India.
2. Review the demographic features of India and discuss policy measure to take advantage of demographic dividend.
3. Critically examine the recent trends in the agricultural development in India and new challenges.
4. Discuss opportunities and challenges of Industry 4.0 and 5.0 and evaluate policy initiatives and programmes of Indian government.
5. Debate on the recent initiatives in the infrastructure sector with reference to both physical and digital infrastructure.
6. Summarise the trends in the Social sector development with focus on challenges and solutions in Education, Health, Banking, Finance and Insurance.
7. Participate in the debate on development vs welfare and evaluate the public finance policy of the government of India with focus on issuing arising out of the policy

**Module-1: Development Debate and Macroeconomic Issues in India (14 Hours)**

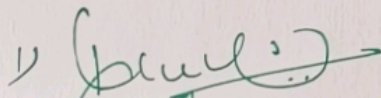

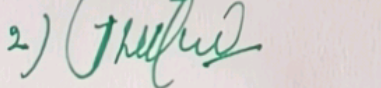

Development Debate: High Economic Growth vs Distributive Justice and Environmental Sustainability; Corruption & Crony Capitalism vs Institutional Efficacy – Challenges in Making India as \$5 Trillion Economy - Controlling of High Inflation and Policy Efficacy Issues – New Types of Unemployment and Measures – Poverty Reduction Debate – Problems of Growing Income & Wealth Inequalities – Challenges in Raising Human Development.

**Module-2: Demography and Agricultural Sector in India (14 Hours)**

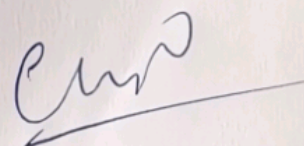

Demography: Regional Variations in Population Growth and their Implications - Changes in Age Structure and its Implications - Reaping Demography Dividend and Challenges – Agricultural Sector: Yield Gaps of Major Crops and Actions - Crop Diversification for Nutritional Food – Sustainable Agriculture and Policy Measures - Challenges in Doubling Farmers Income – Three Farm Bills and Problems – Resurgence of Cooperatives and FPOs.

**Module-3: Industry and Infrastructure in India (12 Hours)**

Industrial Sector: Missing Share of Manufacture Sector and Policy Measures – Opportunities and Challenges in Industry 4.0 & 5.0 – Reviving MSMEs - Problems of Industrial Labour and New Labour Codes – Issues in PSU's Disinvestment - Infrastructure: Challenges in

1)   
2) 

Building Modern Physical Infrastructure and Programs – Prospects of Digital Infrastructure and Measures.

**Module-4: Service Sector in India**

**(12 Hours)**

Education Sector: Poor Quality Standards and Measures, EduTech Companies – Challenges in Skill Development and Programs – Problems in Public Health, Malnutrition and Measures – Gig Economy and its Opportunities & Challenges – Banking Sector: Digital Financial Services, FinTech Companies, Features of IBC – Challenges in Insurance Sector and Measures

**Model-5: Public Finance and Trade in India**

**(12 Hours)**

Debate of Development Expenditure vs Welfare Expenditure in India - Role of DBT in Efficient Public Spending and its Challenges – Budget Deficits and Controlling Measures – Increasing Public Debt and Ways of Redemption – Dwindling in State Government Finances and Measures – Foreign Trade: CAD Deficits and Controlling Measures, Rupee Depreciation and Measures, New Foreign Trade Policy.

**Higher Order Domain Course - 5**  
**10E: BEHAVIOURAL ECONOMICS**

**Learning Outcomes:**

After completing the course, the student is expected to perform the following:

1. Explain the foundations of Behavioural economics;
2. Explain the concepts and theories relating to preferences, choices and decision making
3. Discuss Heuristics and biases in judgment and relation between behaviour law and Economics
4. Explain biases and revealed preferences in behavioural economics;
5. Analyse the applications of behavioural economics in real life

**Module-1: Foundations of Behavioural Economics (12 Hours)**

Definition, Nature and Scope of Behavioural Economics – Psychology and Economics - Rationality Assumptions and Behaviour - Behavioural Approaches to Study Economics - Evolution of Behavioural Economics and Brief Contributions of Behaviourists: Simon, Kahneman, Akerlof and Thaler.

**Module-2: Preferences, Choices and Decision Making (13 Hours)**

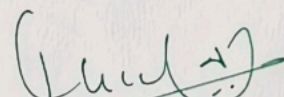

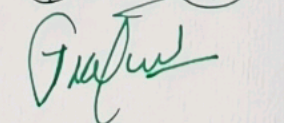

Values, Preferences and Choices - Choice Under Uncertainty - Standard Model - Neuro-Scientific Basis of Utility - Decision Making Under Risk and Uncertainty: Prospect Theory - Reference Points - Risk Concept and Understanding - Loss Aversion - Shape of Utility Function - Decision Weighting - Probabilistic Judgment.

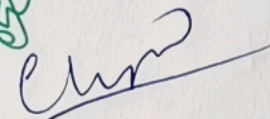

**Module-3: Heuristics and Biases (12 Hours)**

The Standard Model: Probability Estimation - Heuristics - Biases in judgements: Self-Evaluation Bias, Projection Bias, Hindsight Bias, Confirmation Bias - Causes of Irrationality - Behavioural Law and Economics - Selection Among Multiple Strict Equilibria Via Structure, Framing, Fairness, Complexity

**Module-4: Revealed Preference (12 Hours)**

Belief - Game Theory - Nature and Components of Mental Accounting - Framing and Editing - Budgeting and Fungibility - Choice Bracketing and Dynamics - Time Discounting - Time Preferences – Origins of Discounted Utility – Discounted Utility Anomalies

1)   
2) 

## Module-5: Nudging and Applications of Behavioural Economics (12 Hours)

Contribution of Behavioral Economics to Decision Making Process – Nudging - Application of Behavioural Economics in Public Policy, Consumer Behaviour, Financial Markets, Strategic Pricing and Game Theory

**10F: INDUSTRIAL AND INFRASTRUCTURE DEVELOPMENT**

**Learning outcomes:**

After completing the course, the student is expected to perform the following:

1. Explain the profile of Indian industry in terms of the growth and modernisation
2. Explain the various theories of industrial location, and labour
3. Analyse the nature and implications of Investment, product pricing, Finance and Policies in Indian industry
4. Examine recent trends in infrastructural development and evaluate their impact on rapid economic development
5. Discuss infrastructural financing models and government policies

**Module-1: Industry and Economic Development:**

**(13 Hours)**

Industrialization and Economic Development - Factors of Industrialization - Strategies of Industrialization in Developing Countries - Theory of the Firm: Objectives, Size, Growth of the Firm; Optimum Firm, Factors Determining Optimum Firm - Forms of Industrial Organization – MSMEs - Role of Modern Technology in Industrial Development and Industry 4.0 & 5.0. -

**Module-2: Theories of Industrial Location and Industrial Labour**

**(11 Hours)**

Theories of Industrial Location: Weber and Sargent Florence - Factors of Industrial Investment - Industrial Concentration and Measures to Control - Problems of Industrial Labour – Labour Reforms and New Labour Codes & Implications in India

**Module-3: Industrial Pricing, Finance and Policies & Programmes**

**(12 Hours)**

Cost Curves ('U' and 'L' Shape) of Industry and Implications - New Pricing Strategies of Industry – Industrial Finance: Types, Sources – Industrial Financial Institutions in India - New Industrial Policy, National Manufacture Sector Policy in India and Government Programmes for Industrial Development in India

**Module-4: Infrastructure Development: Concept and Models**

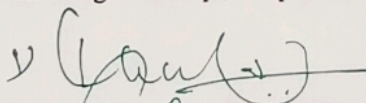

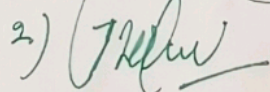

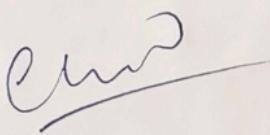

**(12 Hours)**

Concept of Infrastructure – Types of Infrastructure: Economic, Social and Digital – Infrastructure and Economic Development - Infrastructure as a Public Good – Special Characteristics of Public Utilities - Models of Infrastructure Development: SOC and DPA.

**Module -5 Infrastructural Finance and Policies & Programs**

**(12 Hours)**

Infrastructural Finance: Types, Sources and Problems - PPP Model of Infrastructural Financing: Concept, Importance, Types and Challenges — Infrastructural Policies and

1)   
2)  

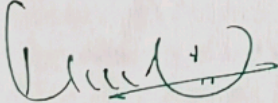

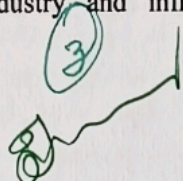

Programs in India – Two Case Studies of Best Successful Infrastructural Developmental Projects in India.

**Suggested Activities:**

1. Assignments and Student Seminars on theories of Industrial economics
2. Web Assignments on industrial concentration
3. Poster presentations on industrial development with focus on core industries and MSMEs
4. Group projects on growth of industry in the locality/region and its impact on employment and income generation.
5. Visits to MSMEs and interaction with managements on finance and government incentives. Submission of reports
6. Quiz and Debating on Indian industry and infrastructure and their role in development.

11    A. Choudhary

A.P. State Council of Higher Education  
Semester-wise Revised Syllabus under CBCS 2020-21

Four Year – B.A.(Hons), Semester - VIII

Skill Enhancing Course - 1

**11A: BASIC ECONOMETRICS**

**Learning Outcomes:**

After completing the course successfully, the student is expected to perform the following:

1. Understand the subject matter of Econometrics and its relation with Mathematical Economics and Statistics;
2. Gain knowledge on the essential Statistical tools to be applied in Econometrics;
3. Explain the two variable linear model, its estimation and properties;
3. Explain the significance test and goodness of fit in econometric model
4. Learn the assumptions, estimation and violation of assumptions of Multiple Linear Regression and their consequences;
5. Apply the software packages for solving the econometric models.

**Module 1: Econometric Model Properties**

**(10 Hours)**

Definition, Scope and Methodology of Econometrics - Mathematical Model vs. Econometric Model – Nature and Sources of Data for Econometric analysis: Time Series & Cross Section, Pooled & Panel Data - Specification of Econometric model.

**Module 2: Statistical Concepts for Econometrics**

**(14 Hours)**

Statistical Concepts: Normal distribution – Properties of Normal Curve - Estimation of Parameters - Properties of Estimators - Test of Significance - Steps involved in Testing of Hypotheses: Null and Alternative Hypotheses - Type I and Type II Errors - Power of a Test - Tests for Comparing Statistics (Means and Variances) of Two or More Samples – t, F, ChiSquare Distributions and ANOVA.

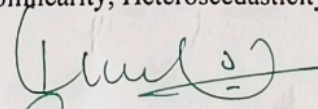

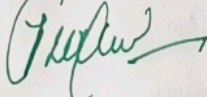

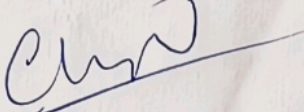

**Module 3: Simple Linear Regression Model and Properties**

**(12 Hours)**

Simple Linear Regression Model: Two Variable Case and Assumptions - Estimation of Model by Method of Ordinary Least Squares (OLS) Method - Gauss-Markov Theorem - Properties of OLS estimators (BLUE) - Goodness of fit ( $r^2$ ) and Adjusted  $r^2$  - One Tail and Two Tail Tests - Confidence Intervals - Drawing Inferences.

**Module 4: Multiple Linear Regression Model and Violations of Classical Assumptions (14 Hours)**

Multiple Linear Regression Model: Three Variable Case - Estimation of Parameters, Properties of OLS Estimators, Partial Regression Coefficients - Goodness of Fit ( $R^2$ ) and Adjusted  $R^2$  - Violations of Classical Assumptions: Consequences, Detection and Remedies – Multicollinearity, Heteroscedasticity and Serial (Auto) correlation.

1)   
2)  

## Module 5: Application of Software Packages

(10 Hours)

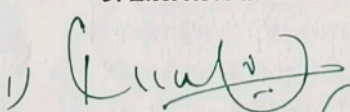

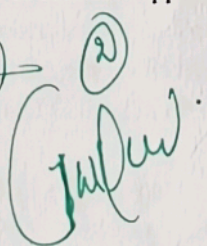

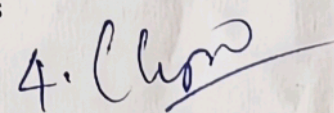

Use of statistical packages (Excel/SPSS/Stata/ R/ E-Views) in Econometrics – Descriptive Statistics – Graphs and Diagrams - Correlation, Regression Analysis and Tests of Significance.

### Suggested Student Activities:

1. Exercises of Concepts of Econometrics
2. Assignments on the use of Regression models for economic problems
3. Student seminars on Econometrics models and their use
4. Task Based Learning (TBL) for solving and application of the econometric model in economics
5. Exercises in use of software applications in econometric models

1.  2.  3.  4. 

**A.P. State Council of Higher Education**  
**Semester-wise Revised Syllabus under CBCS 2020-21**

**Four Year – B.A.(Hons), Semester - VIII**

**Skill Enhancing Course -2**

**11B: COMPUTER APPLICATIONS AND DATA ANALYSIS IN ECONOMICS**

**Learning Outcomes:**

After completing the course, the student is expected to perform the following:

1. Gain knowledge on fundamentals features of hardware and software components of a computer and basics of Internet and Online Resources
2. Able to process, edit and take printout of a word document with MS word;
3. Analyse the data with MS Excel.
4. Present a seminar or a lecture programme with MS Power point;
5. Effectively use the software packages for data analysis

**Module - 1: Fundamentals of Computers**

**(12 Hours)**

Computer Fundamentals Definition – Components of a Computer – Block Diagram– Evolution of Computer Generations– Input–Output Devices–Hardware and Software – Compilers and Assemblers –Low level and High level Languages – Operating Systems and the User Interface – Microsoft Operating Systems – Basics of Internet and Internetworking – Basics of E-mail– Search Engines and Online Resources.

**Unit 2: Working with MS Word**

**(12 Hours)**

MS Word Creating, Opening and Saving Files–Editing and Formatting Text–Short-cut keys in MS Word - Spell and Grammar Check– Creation of Tables and Columns – Mail-merge – Word Art – Concept of Macro – Print Preview and Operations.

**Unit 3: Data Analysis with MS Excel**

**(12 Hours)**

MS Excel Work Sheet – Creating a Data File in MS Excel – Calculations in Excel Sheet – Creating Graphs and Charts with Excel–Data Analysis Pack–Statistical Functions – t, F, Chi Square, ANOVA, Correlation and Regression Analysis - Printing Operations.

**Unit 4: Presentations with MS Power Point**

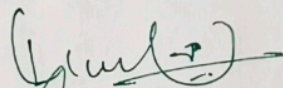

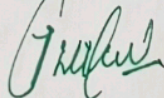

**(10 Hours)**

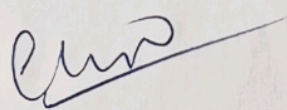

Power Point Components of MS Power Point – Parts of a Power Point Screen - Creating a New Presentation – Opening – Saving – Closing a Presentation – Animation and slide Transit – Inserting Tables and Graphs in PPTs

**Unit 5: SPSS Software Package**

**(14 Hours)**

Introduction to SPSS Software Packages - Opening Excel files in SPSS – Creation of Variables, Labels and Values – Use of Analysis Tools - Descriptive Statistics - Selection of Variables in Multiple Linear Regression – Stepwise Regression.

**A.P. State Council of Higher Education**  
**Semester-wise Revised Syllabus under CBCS 2020-21**

**Four Year – B.A.(Hons), Semester - VIII**

**Skill Enhancing Course - 3**

**11C: MANAGEMENT OF COOPERATIVES**

**Learning Outcomes:**

After completing the course, the student is expected to perform the following:

1. Explain various Principles and Theories of Cooperation;
2. Explain about Forms and Organisational Structures of Cooperatives
3. Discuss the Cooperatives development and Organisations in India
4. Critically examine the functioning of different cooperatives in India and their success stories
5. Evaluate Government Program and Schemes for Cooperatives

**Module 1: Principles and Theories of Cooperation (12 Hours)**

Definition and Concept - Principles of Cooperation - Rochdale and ICA Principles – Cooperative Values - Cooperative Doctrines: Robert Owen, Theory of Workers Control of Cooperatives, Fair Price Theory - Cooperation as an Alternative to Problems of Capitalism and Market Economy.

**Module 2: Forms and Structure of Cooperatives (12 Hours)**

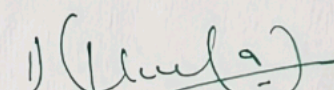

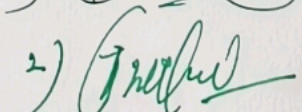

Forms of Cooperatives: Formal & Informal, Single & Multi-purpose, Producers & Consumers, State Cooperatives - Organizational Structure of a Cooperative - General Body Meeting - Role of Officials in Cooperative Management - Importance of Leadership in Cooperative Management.

**Module 3: Cooperative Development, Laws and Institutions in India (12 Hours)**

History of Cooperative Movements in India - Constitutional Provisions for Cooperatives - Salient Features of Andhra Pradesh Cooperative Societies Act-1995 - National Policy on Cooperation – Role of State in Cooperation Development in India – Organisations for Development of Cooperatives in India.

**Module 4: Credit and Agricultural & Dairy Cooperatives in India (12 Hours)**

Types of Cooperatives in India: Credit and Non- Credit Cooperatives - Issues and Challenges of Credit Cooperatives in India - Vaidyanathan Committee Recommendation for Revival of Credit Cooperatives - Micro Finance Cooperatives and SHGs - Cooperative Farming & FPOs : Issues and Challenges – Dairy Cooperatives and White Revolution in India: Success Stories of Amul Dairy

1)   
2) 

### Module 5: Non-Credit Cooperatives and Institutional and Government Programs for Cooperatives Development in India (12 Hours)

Marketing Cooperatives - Cooperative Housing - Consumers Cooperatives - Service Cooperatives – Two Success stories of Cooperatives Marketing and Consumer Cooperatives - Initiatives of NCDC, NAFED, NABARD in Development of Cooperatives – Government Programs and Schemes for Development of Cooperative in India.

**A.P. State Council of Higher Education**  
**Semester-wise Revised Syllabus under CBCS 2020-21**

**Four Year – B.A.(Hons), Semester - VIII**

**Skill Enhancing Course - 4**

**11D: CORPORATE SOCIAL RESPONSIBILITY**

**Learning Outcomes:**

After completing the course, the student is expected to perform the following:

1. Explain various concepts in Corporate Social Responsibility (CSR);
2. Explain the frameworks for CSR and global initiatives
3. Analyse the legislative initiatives relating to CSR in India
4. Evaluate the roles and responsibilities of Key Stakeholders under CSR;
5. Make a critical appraisal of the implementation of CSR projects in India.

**Module 1: Introduction to Corporate Social Responsibility (CSR) (12 Hours)**

Meaning & Definition of CSR - Concepts of Charity, Corporate Philanthropy, Corporate Citizenship - Relation between CSR and Corporate Governance - Environmental aspects of CSR - Carroll's Model - Drivers of CSR - Major Codes on CSR - Evolution of CSR in India - CSR initiatives in India.

**Module 2: International Framework for CSR (12 Hours)**

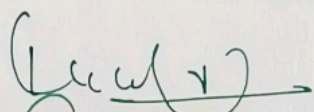

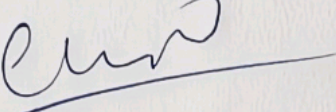

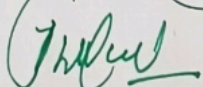

Relationship between CSR and Sustainable Development Goals - United Nations (UN) Global Compact 2011 - UN Guiding Principles on Business and Human Rights- OECD CSR Policy Tool, ILO Tri-Partite Declaration of Principles on Multinational Enterprises and Social Policy - Global Compact Self-Assessment Tools.

**Module 3: CSR Legislation in India (12 Hours)**

Provisions of Section 135 of Companies Act 2013 - Scope for CSR Activities under Schedule VII, Appointment of Independent Directors on the Board - Computation of Net Profits - Implementing Process of CSR In India.

**Module 4: Identifying Key Stakeholders of CSR & their Roles (12 Hours)**

Role of Public Sector in Corporate Sector - Government Programs Encouraging Voluntary Responsible Action of Corporations - Role of Non-profit & Local Self Governance in Implementing CSR - Contemporary Issues in CSR & SDGs - National Voluntary Guidelines by Govt of India - Understanding Roles and Responsibilities of Corporate Foundations.

1)    
2) 

## Module 5: CSR Program Implementation and Opportunities

(12 Hours)

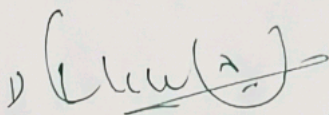

Implementation of CSR Programmes - Monitoring and Measuring the Impact of CSR Programs - Current Trends and Opportunities in CSR - Successful Corporate Initiatives & Challenges of CSR - Case Studies of Major CSR Initiatives in Local Area.

## MODEL QUESTION PAPER

SEMESTER VIII PAPER – 10D

Title: CONTEMPORARY DEVELOPMENTAL ISSUES IN INDIAN ECONOMY

Time: 3 Hours

Max Marks: 75

### Section - A

I. Answer any five from the following questions

(5X5=25 M)

1. Economic Growth
2. High Inflation
3. Demography Dividend
4. Sustainable Agriculture
5. Disinvestment
6. Digital Infrastructure
7. Digital Financial Services
8. Insurance
9. Skill Development
10. Distributive Justice

### Section-B

II. Answer all the following questions

5X10= 50 M

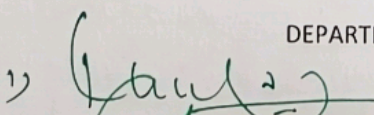

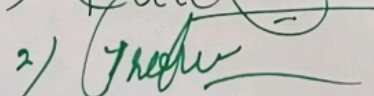

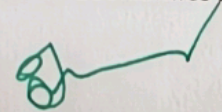

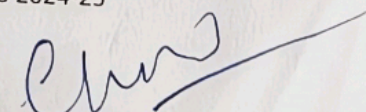

11. A) Explain the Challenges in Making India as \$5 Trillion Economy?  
Or  
B) . Explain the Challenges in Raising Human Development?
12. A). Explain the Regional Variations in Population Growth and their Implications  
Or  
B). Explain the Policy Measures to Sustainable Agriculture?
13. A). Explain the Opportunities and Challenges in Industry 4.0 & 5.0?  
Or  
B). Explain the Prospects of Digital Infrastructure?
14. A). Explain the Challenges in Skill Development?  
Or  
B). Explain the Challenges in Insurance Sector?
15. A). Explain the debate of Development Expenditure vs Welfare Expenditure in India?  
Or  
B). Explain Budget Deficits and their Controlling Measures?

**( Short Answer Type Questions)**      *Marks : 5 x 5 M = 25 M*

*Answer any FIVE out of the following TEN questions*

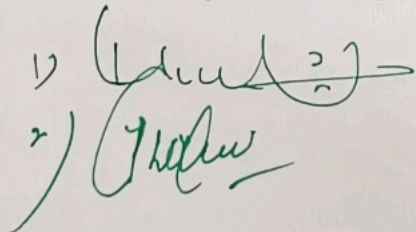

1. Evolution of Behavioural Economics
2. Relationship between Psychology and Economics
3. Concept of choice under Uncertainty
4. Concept of probabilistic Judgement
5. What are the causes of Irrationality
6. Explain the concept projection Bias.
7. Briefly explain the Game theory
8. What are the origins of Discounted utility
9. Explain the concept of Nudging
10. What is Financial markets

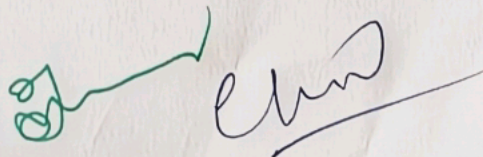

**SECTION-B**

**(Essay Type Questions)**      *Marks : 5x10M = 50M*

*Answer any FIVE out of the following TEN questions*

11. A) Explain the nature and scope of Behavioural economics  
or  
B) Explain behavioural approaches to study economics
12. A) Explain the Prospect theory.  
or  
B) Explain the Neuro scientific basics of Utility
13. A) Explain the different types of Biases in judgement .  
or  
B) Explain the fairness and complexity of selection
14. A) Explain the nature and components of Mental Accounting  
or  
B) Explain the Time preference- origins of Discounted utility

1) 

15. A) Explain the contribution of behavioural economics to decision making process  
or  
B) Explain the concept of strategic Pricing.

*Time : 3 hrs*

*Max marks : 75*

**SECTION-A**

**( Short Answer Type Questions)      Marks : 5 x 5 M = 25 M**

*Answer any FIVE out of the following TEN questions*

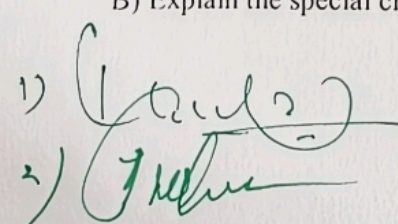

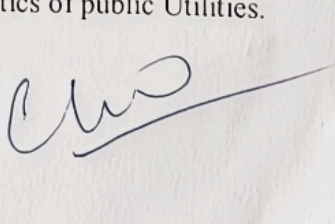

1. State the factors for industrialization.
2. State the objectives of firms.
3. Sargent Florence theory of industrial location.
4. Write about industrial concentration.
5. Explain the 'L' shape cost curve
6. Briefly write about New Industrial policy.
7. what is social infrastructure ?
8. Explain the concept of SOC and DPA
9. Types of infrastructural finance
10. PPP modal of infrastructural finance.

**SECTION-B**

**(Essay Type Questions)      Marks : 5x10M = 50M**

*Answer any FIVE out of the following TEN questions*

11. A) Explain the role of industries in economic development  
or  
B) Explain the role of technology in industrial Development.
12. A) Explain the measures to control industrial concentration  
or  
B) Explain the problems of industrial labour
13. A) write about various industrial financial institutions in India.  
or  
B) write about the national manufacturing policy of India
14. A) Explain the role of Economics, social and digital infrastructure in economics development.  
or  
B) Explain the special characteristics of public Utilities.

1)  2) 

15. A) Explain the problem in infrastructure finance

or

B) write about the infrastructural policies

**PAPER: (11 – A) BASIC ECONOMETRICS (SEMESTER- VIII)**

**Model Question Paper**

*Time : 3 hrs*

*Max marks : 75*

**SECTION-A**

**( Short Answer Type Questions)    Marks : 5 x 5 M = 25 M**

*Answer any **FIVE** out of the following **TEN** questions*

1. Mathematical Models vs Econometric Models
2. What do you mean by cross sectional Data
3. Define the Normal distribution
4. Write about Chi-square test
5. Explained the BLUE Properties
6. What do you mean by Estimators
7. Good ness of fit ( $r^2$ )
8. Auto Correlation
9. How to Create bar diagram in MS Excel
10. How to create work file in E views

**SECTION-B**

**(Essay Type Questions)**

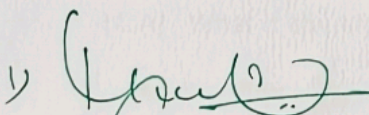

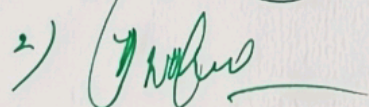

**Marks : 5x10M = 50M**

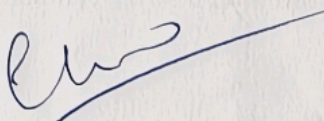

*Answer any **FIVE** out of the following **TEN** questions*

11.A). Explain the scope and methodology of Econometrics

Or

B). Explain the various sources of data for Econometric analysis

1)   
2) 

12. A) Explain the various steps involved in testing of hypothesis  
or

B) Explain briefly one way and two way ANOVA Models

13. A) Show that the variance of ordinary least squares estimator of the slope coefficient in the following regression model .

$Y_i = B_1 + B_2 X_i + u_i$  is given by :

$$Var(b_2) = \frac{\sigma_u^2}{\sum_i (X_i - \bar{X})^2}$$

where  $\sigma_u^2$  is the variance of the population error term.

or

B) Based on 48 years of annual data on inflation and unemployment, both measured in percentage, in the following model was estimated :

$$\Delta inf = B_1 + B_2 \Delta unemp + u$$

where :  $\Delta inf$  and  $\Delta unemp$  are, respectively, inflation and unemployment measured in first differences.

The following table gives partial results of the regression :

	Coefficient	Standard Error
Constant	-0.0781	0.348
$\Delta unemp$	-0.8429	0.314
$R^2=0.832$		

(i) Interpret the slope coefficient.

(ii) Test, at 5% level of significance, the claim that there is a one to one tradeoff between inflation and unemployment. Set up the null hypothesis carefully.

Or

14. A). What is the Multicollinearity? Write down the practical consequence of Multicollinearity.

1)   
2)   

B) Briefly discusses about the Multi coefficient of determinates of R square and adjusted R squares

15. A) How to analyses descriptive statistics (Mean, Mode stand deviation and range) using SPSS Package

Or

B) What are steps are involved to estimating multiple regression using SPSS soft ware

1) Mean  
2) Standard Deviation

3) Range  
4) Mode
