### MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) is entered into this day of 20<sup>th</sup> July, 2022 between Bharat Electronics Ltd (hereinafter called "BEL" and Krishna University, Machilipatnam (hereinafter called "Krishna University") for collaboration in the field of Engineering & Technology.

#### 1. PREAMBLE

Krishna University and BEL formally enter into a Memorandum of Understanding to collaborate with each other with the following objectives:

- Enabling undertaking through BEL and Krishna University to share the technical experience of each other in fields of Engineering & Technology.
- Closer interaction and linkage between Krishna University and BEL for better assessment and utilization of training facilities available at each others place on requirement basis.
- Developing exchange of technical experts between BEL and Krishna University.
- Assisting in proper up gradation of laboratory equipment, instruments and pilot plants at each other's establishments on requirement and study basis.

1.1 This Memorandum of Understanding is initially valid for a period of three (3) years and can be extended through a mutual consent of both parties at the end of the initial period of collaboration. However the MOU can be revised whenever the necessity arises by mutual consent.

2. EXCHANGE OF FACULTY / ENGINEERS

2.1 One of the major facets of the collaboration is the exchange of faculty from Krishna University and experts from BEL.

2.2 Such exchange of faculty/scientists and experts would be based on each other requirements.

3. JOINT PROJECTS

3.1 Facilities in terms of equipment and other infrastructural facilities at either Krishna University or BEL obtained through their respective resources will be freely made available to the staff and students working on projects located at either institution.

3.2 Equipment obtained under joint sponsored projects and housed in either of the institutions will continue to be available for use by both Krishna University faculty and officers of BEL even after the currency of the joint projects.

3.3 The sharing of facilities at either place will be by mutual consent and convenience.

4. TRAINING AND EDUCATION

4.1 With rapid advancement of technology and wider spectrum of knowledge base, it is not possible for any educational or research Institute to meet the training need independently. It is proposed to jointly assess the training/ education needs of each and provide the facilities available at each of the institutions for supplementing such needs.

4.2 As a part of this understanding , to enhance and provide exposure to students periodical workshops will be organized and accordingly shortlisted students will be permitted for Live/real time Projects.
